VALERIE GAIGG

Based in Appleton, WI

Education

Web Development & Design Specialist, AAS | Fox Valley Technical College | 4.0 GPA

Anticipated Graduation: May 2026

Experience

Footwear Sales Associate | Scheels All Sports, Inc. | November 2022 - Current

- Assessed individual customer needs, using product knowledge to discover footwear solutions.
- Contributed to an uplifting workplace culture rooted in providing exceptional customer experiences.
- Trained and challenged new employees to develop their own selling styles.
- Enhanced personal sales performance through regular improvement meetings.

Cashier & Customer Service Representative | Scheels All Sports, Inc. | November 2021 – November 2022

- Assisted customers in placing orders, fulfilling refunds, and helping with exchanges.
- Handled customer complaints and provided alternatives and/or solutions to ensure conflict resolution.
- Facilitated the credit card application process and maintained the visa booth.

Assistant Volleyball Coach | Heat Volleyball Club | December 2025 - March 2026

- Planned and led weekly practices designed for overall team success.
- Communicated consistently with players and parents to maintain an enjoyable team environment.
- Coordinated with other coaches and officials to manage practice and tournament time.

Web Development Projects

Jennifer Tabbert Photography | Next.js, React, Tailwind CSS | Freelance Project | December 2025 - May 2026

Created a redesigned static website for a local photography business, focusing on improvement in customer experience, SEO, and an up-to-date user interface.

- Presented wireframes with a new, improved site design to rival local competition.
- Implemented new UI using Next.js with React components to enhance load times, search engine indexing, and AI-friendly content.
- Used content-writing skills and image optimization to create a rich user experience throughout each page.

FitTrack Workout Platform | ASP.NET Core | Agile Team Project | January 2026 - May 2026

Developed a personalized fitness platform for tracking workouts, diet plans, and progress toward health goals.

- Collaborated with an independently-led team to create a project outline, organize sprints and tasks, and hold meetings to reflect on each week's development progress.
- Designed a clean user interface with a focus on user experience, backend integration, and responsive design.
- Assisted in backend development, including object-oriented programming, SQL Server implementation, and database structuring.
